The *EXPRESS SMART GAME* structure consists of **16 levels**.
 You can enter any of the levels that are available at the moment.
 Levels become available in reverse order, from the most expensive **level 16** to the cheapest **level 1**. Levels are opened in predefined time intervals.

You can enter the game at any time and start receiving your passive income right away. The earlier you enter the game, the faster you start receiving passive income.

Structure of each level in **EXPRESS SMART GAME**

In **EXPRESS SMART GAME** each level is a separate structure with simple rules.

All new players are randomly placed in the overall structure on each level, providing everyone with the equal chance to earn rewards without the need to invite personal partners.

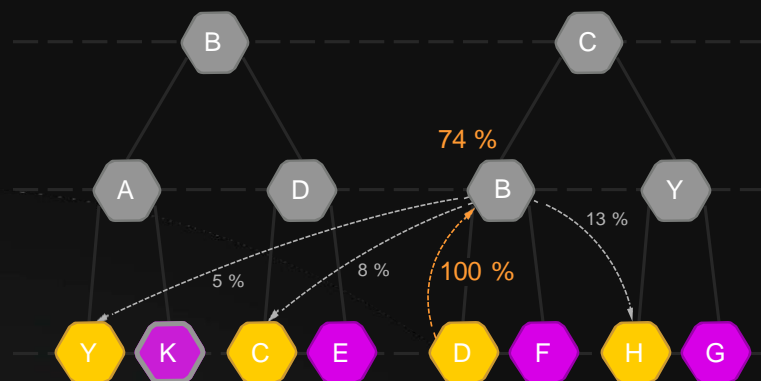

You choose any open level and enter it. When entering the level, you are placed in a line with free places. These free places are distributed randomly.

The new player always occupies the right cell.

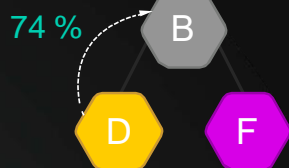

When both cells below you are occupied by players, you move to a new line below. And this cycle is repeated.

First, empty cells in the top line are filled. When the line is full, a recycle occurs, and the players move to the bottom line to occupy the left cell.

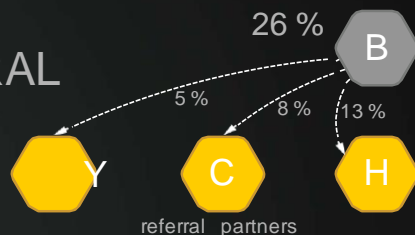

After that, the filling of the line with new players begins. When the line is completely filled, the cycle repeats.

BASIC REWARD

REFERRAL BONUS

REWARDS in the **EXPRESS SMART GAME** are generated when a new player enters a level by activating it. You receive rewards in each level that you open.

YOU RECEIVE TWO TYPES OF REWARDS IN THE GAME

100% OF THE LEVELACTIVATION SUM IS SPLIT INTO 4 PARTS: 74%, 13%, 8%, 5% and immediately distributed via a single transaction to the participants' wallets according to the game rules.

BASIC REWARD + 74% goes to a random upline participant in the level structure.

REFERRAL BONUS + 26% you receive from referral partners (up to the 3rd step)

1st step referral partners + 13%

2nd step referral partners + 8%

3rd step referral partners + 5%

* Referral bonuses can only be received from the activated levels.

Thus, each new player who activated the game can **BRING YOU PASSIVE INCOME**, even if he joined the game not through your referral link.

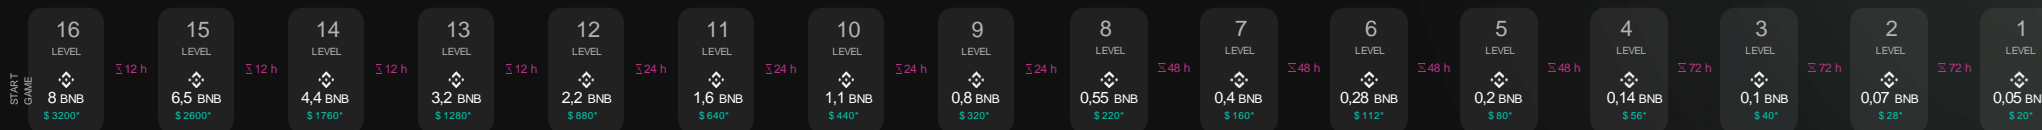

BONUS! Referral linking and team structures remain the same for FORSAGE members as in the main FORSAGE BUSD program.

FREEZE

A level will be frozen if 2 cycles are completed (2 basic rewards received), but the next more expensive level is not activated. When the level is frozen, all the profits including referral bonuses go to the nearest active upline, who has this level activated.

OVERTAKING

If your personal partners activate any level in the **EXPRESS SMART GAME** before you do, it means they overtake you, and you will miss profits on the level. Therefore, it is advised to activate as many levels as soon as possible to avoid missed profits.

Levels in the **EXPRESS SMART GAME** are opened according to the given schedule. Each next level becomes available to everyone after a set period of time ranging from 12 to 72 hours. One level at a time, from the highest to the lowest. Each level structure is different which allows you to generate income from different levels simultaneously.

EXPRESS SMART GAME levels launch intervals:

- Level 16 — available at the **GAME START**
- Levels 15, 14, 13, — in **12 hours** after the previous one
- Level 12 — in **24 hours** after the previous one
- Levels 11, 10, 9, 8 — in **48 hours** after the previous one
- Levels 7, 6, 5, 4 — in **72 hours** after the previous one
- Levels 3, 2, 1

After a total of 23 days from the start, all 16 levels will be available for activation.

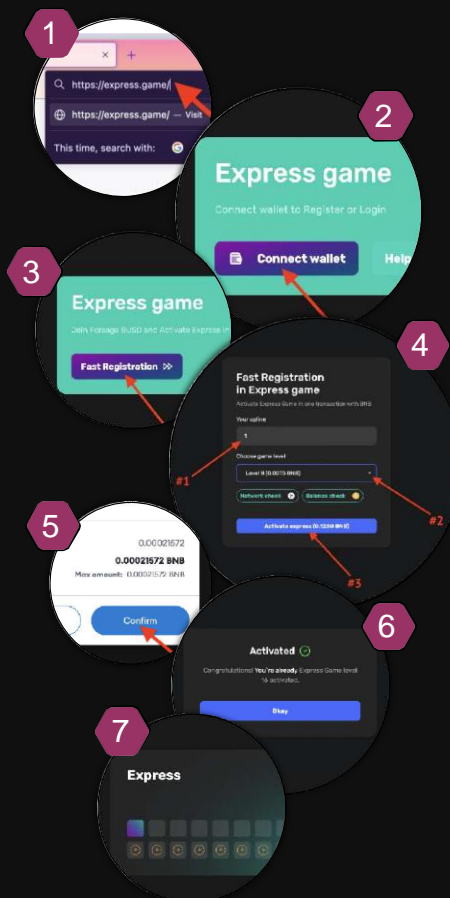

The levels in the **EXPRESS SMART GAME** are activated step by step, starting at level 16 at a cost of 8 BNB. If you join the game when several levels are available, you can choose any available level to start with.

BUT REMEMBER that after two cycles of profit at any level, it freezes until you upgrade to the next more expensive level.

Benefits for **FORSAGE BUSD** members

1. **Same partner structure from Forsage BUSD.** Express game uses the same partner structure as in Forsage BUSD, so all your partners will join Express as your partners automatically. All they need is just activate levels in Express game.
2. **Express game is a tool to grow your Forsage BUSD team.** When you invite partners to Express game, they simultaneously join Forsage BUSD with you as their upline.
3. **Automatic partner activation.** When you activate the levels in Express game, your partners in Forsage BUSD will most likely receive a notification in BUSD in the application about missed profits, which will motivate them to join Express game without your participation.

DISCLAIMER

The **EXPRESS SMART GAME** sticks to the basic principles of **FORSAGE**, such as decentralization, transparency of each transaction, no fees, no fund accumulation of any kind.
